SDS Revision Date: 04/06/2015

### 1. Identification

1.1. Product identifier

Product Identity HT500

Alternate Names HT500, Lubricating Grease w/ Fluorocarbon Polymer

additive

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended useSee Technical Data Sheet.Application MethodSee Technical Data Sheet.

1.3. Details of the supplier of the safety data sheet

**Company Name** Donnelly Bros, Inc.

100 Garlington Street Laurens, SC 29360. USA

**Emergency** 

**CHEMTREC (USA)** (800) 424-9300

**24 hour Emergency Telephone No.** Medical Emergency: (864) 984-4400

Customer Service: Donnelly Bros, Inc. 864) 984-4400

# 2. Hazard(s) identification

#### 2.1. Classification of the substance or mixture

No applicable GHS categories.

#### 2.2. Label elements

Using the Toxicity Data listed in section 11 and 12 the product is labeled as follows.

No applicable GHS categories.

[Prevention]:

No GHS prevention statements

[Response]:

No GHS response statements

[Storage]:

No GHS storage statements

[Disposal]:

No GHS disposal statements

**SDS Revision Date:** 04/06/2015

### 3. Composition/information on ingredients

This product contains the following substances that present a hazard within the meaning of the relevant State and Federal Hazardous Substances regulations.

Ingredient/Chemical Designations	Weight %	GHS Classification	Notes
Poly(tetrafluoroethene) CAS Number: 0009002-84-0	25 - 50	Not Classified	[1]

In accordance with paragraph (i) of §1910.1200, the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

#### 4. First aid measures

#### 4.1. Description of first aid measures

General In all cases of doubt, or when symptoms persist, seek medical attention.

Never give anything by mouth to an unconscious person.

Inhalation Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give

artificial respiration. If unconscious place in the recovery position and obtain immediate

medical attention. Give nothing by mouth.

**Eyes** Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and

seek medical attention.

Skin Remove contaminated clothing. Wash skin thoroughly with soap and water or use a

recognized skin cleanser.

Ingestion If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.

#### 4.2. Most important symptoms and effects, both acute and delayed

Overview Acute Effects: Possible skin and eye irritation. Polymer fume fever and flu-like symptoms at

temperatures above 250°C due to PTFE decomposition.

Carcinogenicity: IARC, NTP, and OSHA do not list HT500 or its ingredients as carcinogens.

See section 2 for further details.

### 5. Fire-fighting measures

#### 5.1. Extinguishing media

Carbon dioxide (CO2), foam, dry chemical, water spray

#### 5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: Carbonyl Fluoride, Hydrofluoric Acid gas, Perfluorocarbon Olefins, Carbon Monoxide and small amount of other toxic fumes.

<sup>[1]</sup> Substance classified with a health or environmental hazard.

<sup>[2]</sup> Substance with a workplace exposure limit.

<sup>[3]</sup> PBT-substance or vPvB-substance.
\*The full texts of the phrases are shown in Section 16.

SDS Revision Date: 04/06/2015

#### 5.3. Advice for fire-fighters

Fire-Fighting Instructions: Avoid smoke inhalation. Water or foam may cause frothing. Do not release runoff from fire control methods to sewers or waterways.

Fire-Fighting Equipment: Because fire may produce toxic thermal decomposition products, wear a self-contained breathing apparatus (SCBA) with a full facepiece operated in pressure-demand or positive-pressure mode.

ERG Guide No. ----

#### 6. Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Put on appropriate personal protective equipment (see section 8).

#### 6.2. Environmental precautions

Do not allow spills to enter drains or waterways.

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

#### 6.3. Methods and material for containment and cleaning up

Spill/Leak Procedures: Wipe or scrape up grease spillage and place it in a container for disposal.

Containment: Do not release into sewers or waterways.

Cleanup: Wash walking surfaces thoroughly with detergent and water to reduce slipping hazard.

Regulatory Requirements: Follow applicable OSHA regulations (29 CFR 1910.120). Consult applicable state and local regulations.

## 7. Handling and storage

#### 7.1. Precautions for safe handling

Exercise ordinary care in handling industrial lubricants. Avoid contamination of cigarettes or other tobacco products. Wash hands thoroughly before eating or smoking. Remove contaminated clothing and clean before reuse. Users should be alert to the possibility that very small percentages of the population may display unexpected allergic reactions to otherwise innocuous industrial lubricants and raw materials.

#### 7.2. Conditions for safe storage, including any incompatibilities

Handle containers carefully to prevent damage and spillage.

Incompatible materials: Strong Oxidizers

Do not store in open or unlabeled containers. Store away from strong oxidizing agents or combustible material.

#### 7.3. Specific end use(s)

No data available.

SDS Revision Date: 04/06/2015

### 8. Exposure controls and personal protection

#### 8.1. Control parameters

#### **Exposure**

CAS No.	Ingredient	Source	Value
0009002-84-0	Poly(tetrafluoroethene)	OSHA	No Established Limit
		ACGIH	No Established Limit
		NIOSH	No Established Limit
	Supplier	No Established Limit	

The exposure limits for oil mist are 5 mg/m3 OSHA PEL and 10 mg/m3 ACGIH.

#### Carcinogen Data

CAS No.	Ingredient	Source	Value
0009002-84-0	Poly(tetrafluoroethene)	OSHA	Select Carcinogen: No
		NTP Known: No; Suspected: No	
		IARC	Group 1: No; Group 2a: No; Group 2b: No; Group 3: Yes; Group 4: No;

#### 8.2. Exposure controls

**Respiratory** Avoid breathing oil mist. Respiratory protection is generally not necessary under normal

conditions of use with adequate general ventilation.

**Eyes** Protective safety glasses recommended

**Skin** Wear chemically protective gloves, and aprons to prevent prolonged or repeated skin

contact. Wear protective eyeglasses or chemical safety goggles, per OSHA eye- and face-protection regulations (29 CFR 1910.133). Contact lenses are not eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses.

**Engineering Controls** Provide adequate ventilation. Where reasonably practicable this should be achieved by the

use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits

suitable respiratory protection must be worn.

Other Work Practices Use good personal hygiene practices. Wash hands before eating, drinking, smoking or

using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

See section 2 for further details. - [Prevention]:

### 9. Physical and chemical properties

Appearance Off White Solid

**Odor** Mild

Odor threshold Not Measured pH Neutral

Melting point / freezing point Not Measured

SDS Revision Date: 04/06/2015

Initial boiling point and boiling rangeNot MeasuredFlash PointNot Measured

**Evaporation rate (Ether = 1)** Slower than diethyl ether

Flammability (solid, gas) Not Applicable

Upper/lower flammability or explosive limits

Lower Explosive Limit: Not Measured

Upper Explosive Limit: Not Measured

Vapor pressure (Pa) Negligible

Vapor Density Heavier than air1.9 (H2O = 1 at 4 C)

Specific Gravity

Solubility in Water

Partition coefficient n-octanol/water (Log Kow)

Auto-ignition temperature

Decomposition temperature

Viscosity (cSt)

Not Measured

Not Measured

Not Measured

Not Measured

Not Measured

Not Measured

Over 200 C

9.2. Other information

No other relevant information.

### 10. Stability and reactivity

#### 10.1. Reactivity

Hazardous Polymerization will not occur.

#### 10.2. Chemical stability

Stable under normal circumstances.

#### 10.3. Possibility of hazardous reactions

No data available.

#### 10.4. Conditions to avoid

**Pyrolysis** 

#### 10.5. Incompatible materials

Strong Oxidizers

#### 10.6. Hazardous decomposition products

Carbonyl Fluoride, Hydrofluoric Acid gas, Perfluorocarbon Olefins, Carbon Monoxide and small amount of other toxic fumes.

SDS Revision Date: 04/06/2015

# 11. Toxicological information

#### **Acute toxicity**

Ingredient	Oral LD50, mg/kg	Skin LD50, mg/kg	Inhalation Vapor LC50, mg/L/4hr	Inhalation Dust/Mist LC50, mg/L/4hr	Inhalation Gas LC50, ppm
Poly(tetrafluoroethene) - (9002-84-0)	No data available	No data available	No data available	No data available	No data available

Note: When no route specific LD50 data is available for an acute toxin, the converted acute toxicity point estimate was used in the calculation of the product's ATE (Acute Toxicity Estimate).

Classification	Category	Hazard Description
Acute toxicity (oral)		Not Applicable
Acute toxicity (dermal)		Not Applicable
Acute toxicity (inhalation)		Not Applicable
Skin corrosion/irritation		Not Applicable
Serious eye damage/irritation		Not Applicable
Respiratory sensitization		Not Applicable
Skin sensitization		Not Applicable
Germ cell mutagenicity		Not Applicable
Carcinogenicity		Not Applicable
Reproductive toxicity		Not Applicable
STOT-single exposure		Not Applicable
STOT-repeated exposure		Not Applicable
Aspiration hazard		Not Applicable

## 12. Ecological information

#### 12.1. Toxicity

No additional information provided for this product. See Section 3 for chemical specific data.

#### **Aquatic Ecotoxicity**

Ingredient	96 hr LC50 fish,	48 hr EC50 crustacea,	ErC50 algae,
	mg/l	mg/l	mg/l
Poly(tetrafluoroethene) - (9002-84-0)	Not Available	Not Available	Not Available

SDS Revision Date: 04/06/2015

12.2. Persistence and degradability

There is no data available on the preparation itself.

12.3. Bioaccumulative potential

Not Measured

12.4. Mobility in soil

No data available.

12.5. Results of PBT and vPvB assessment

This product contains no PBT/vPvB chemicals.

12.6. Other adverse effects

No data available.

## 13. Disposal considerations

#### 13.1. Waste treatment methods

Observe all federal, state and local regulations when disposing of this substance.

### 14. Transport information

DOT (Domestic Surface IMO / IMDG (Ocean ICAO/IATA Transportation) Transportation)

**14.1. UN number** Not Applicable Not Regulated Not Regulated

14.2. UN proper shipping Not Regulated Not Regulated Not Regulated name

14.3. Transport hazard Class: Not Class: Not Applicable Sub Class: Not Applicable Sub Class: Not Applicable Sub Class: Not Applicable

**14.4. Packing group** Not Applicable Not Applicable Not Applicable

14.5. Environmental hazards

**IMDG** Marine Pollutant: No

14.6. Special precautions for user

No further information

## 15. Regulatory information

**Regulatory Overview** The regulatory data in Section 15 is not intended to be all-inclusive, only selected

regulations are represented.

Toxic Substance All components of this material are either listed or exempt from listing on the TSCA

Control Act (TSCA) Inventory.

WHMIS Classification Not Regulated

SDS Revision Date: 04/06/2015

US EPA Tier II Hazards Fire: No

Sudden Release of Pressure: No

Reactive: No

Immediate (Acute): No Delayed (Chronic): No

#### EPCRA 311/312 Chemicals and RQs:

To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

#### **EPCRA 302 Extremely Hazardous:**

To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

#### **EPCRA 313 Toxic Chemicals:**
